Education

Lehigh University

Bethlehem, PA

BA Double Major: Computer Science / Economics

January 2018 - May 2021

- **GPA:** 3.4 / 4.0
- **Computer Science:** Algorithms, Data Structures, OOP, Recursion
- **Economics:** Macro/Microeconomics, Game Theory, Money & Banking

Experience

Perficient, Inc.

Allentown, PA

Technical Consultant

June 2021 - Present

- Utilized PHP, HTML, CSS, and JS on the Magento Framework to design, build, test, and deploy business and customer-facing webpages.
- Collaborated with large teams to provide clients with improved display speeds, UX functionality, and system security, for their millions of active users.
- Exhibited self-starter qualities by producing reputable code with minimal oversight, which was recognized by the team and rewarded with a promotion ahead of schedule.

Lapis Health

Remote

Mobile Developer Intern

September 2020 - January 2021

- Responsible for designing, implementing, and deploying a global light/dark theme using Flutter and Dart.
- Created Dev, Staging, and Prod build configurations using Flutter Flavors connected to their own firebase database.
- Enhanced multitasking, time-management, and problem-solving skills by completing this internship during the fall semester of my senior year.

Technical Skills

Programming Languages: Python, JavaScript, TypeScript, Java, PHP, C/C++, Dart

Front-End: React, React-Native, HTML, CSS, Flutter, Bootstrap, Sass

Other: Git, SQL, GraphQL, Bash, Linux

Personal Projects

Rug Store Website—<https://mkr-ecommerce-v465.vercel.app/>

- Built a React commerce website connected to a Sanity database and integrated Stripe to handle transactions.

Ai How-To Generator — <https://howtogenerated.netlify.app/>

- Leveraged a React input form connected to OpenAi's language model, text-davinci-003, to respond to users with a detailed list of 'how to do anything'.

Certifications

The Complete Web Developer Bootcamp

- Learned modern web development fundamentals as well as advanced topics in HTML, CSS, JS, React, Node.js, Express, and SQL

React-Native Bootcamp

- Used React.js to build real native apps for iOS and Android.
